SERVICE

ABOUT US

INFA TECHNOLOGY CO.,LTD is a professional manufacturer of a range of machined parts, precision machined components, non-standard machined parts, Titanium parts, turned parts, precision assemblies, milled parts and CNC machined parts, the products we produced are widely used in new energy, Medical & Dental device, machinery automation , food equipment, Oil&Gas, aerospace , optical-communication, electronics, camera and other industries.

SOLUTION — MACHINING PARTS

Production equipment list

Manufacturing Sites	Type of Equipment					Total Equipment	Total Machining Hours
	CNC Milling 5 Axis	CNC Milling 4 Axis	CNC Milling 3 Axis	CNC Turning	Engraving		
Guangzhou	3	8	10	1	1	23	14000

SOLUTION — MACHINING PARTS

Process capability

The key production capacity:	CNC Milling	5/4/3 - axis milling machining
	CNC Turning	Swiss type CNC machining,CNC Turning machining
	Grinding	Optical grinding, boring grinding, cylindrical grinding, centerless grinding, plane grinding, large water grinding
Other capacity:	EDM	wire-electrode cutting, discharge machining
	Welding	Argon arc welding, CO2 protective welding
	Other non - CNC machining	General turning, general milling, drilling, tapping
	Heat Treatment	Tempering, quenching, carburizing, nitriding, vacuum heat treatment, ultra-low temperature treatment

SOLUTION — MACHINING PARTS

Material used

TYPE	standard brand
Aluminum alloy	2024/5083,5754/6061/6063/6082/7075, AlMg1SiCu1/AlMgSi0.5
Copper alloy	HPb59-1,CuZn39Pb1/2/3,CuZn40,C36000,C37710 etc.
Stainless steel	SUS202,SUS303,SUS303L,SUS304,SUS304L,SUS316,SUS316L,SUS440C,SUS630 etc.
Carbon Steel	1008;1012;1020;1045;1060;1090 etc
Tool Steel	A series ; D series; M series
Mold steel	ASSB;SAP;HITACHI;DAIDO;KOSHUHA;Brand etc
Plastic	ABS,PC,POM,,PE,PEEK,PA,PAI,PMMA,PVC,Rulon,Nylon,Utem ect
Titanium	Ti-6Al-4V;Ti-3Al-2.5V;GR2;GR5;GR9
Other Alloy	ferronickel alloy, covar, invar,Carbide,Tungsten alloy

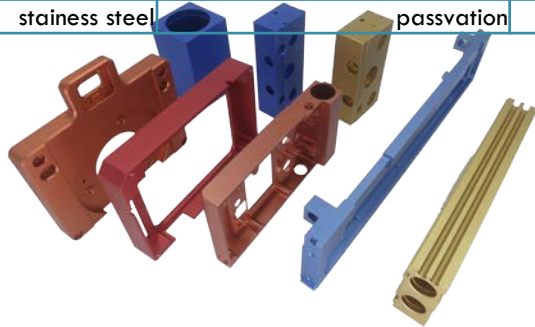

SOLUTION — MACHINING PARTS

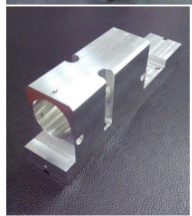

Surface treatment process

material	process type	carried standard
aluminum alloy	anodized	MIL-A-8625F
	alodine	MIL-C-5541F
STEEL ALLOY	ZINC PLATING	ASTM B633
	Electroless Nickel plating	ASTM B733
	chromeplate	ASTM B177
	black oxide	MIL-C-13924
stainless steel	passvation	ASTM A967

PARTS SHOW

SOLUTION - OTHER STRUCTURAL PARTS

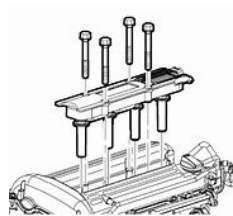

1. Injection molded parts
2. Die casting
3. Bend/pipe
4. spring
5. wood
6. Rubber parts
7. Delay presses
8. Blister box
9. Paper
10. Foam

Other parts requirements, we meet the same.

SOLUTION - ASSEMBLY AND PACKAGING

We can assemble and package the finished products for shipment.

SOLUTION - MATERIAL INVENTORY MANAGEMENT

Kanban production

- Mass production
- Supply in small quantities

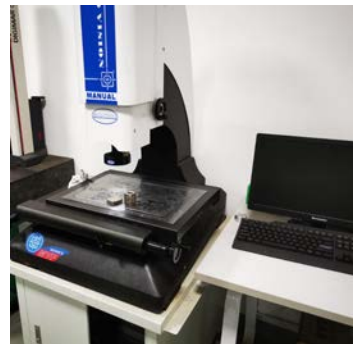

Protocol of inventory

- Mass production
- Supply in small quantities

Purchasing agents

- Standard parts
- The mould

FACTORY SITE

TEAM

More than 20 people,
young and energetic.

谢谢！！
THANK YOU!!
